ANFAJE

ASSOCIAÇÃO NACIONAL DOS FABRICANTES DE JANELAS EFICIENTES

ABOUT ANFAJE

Anfaje – National Association of Manufacturers Efficient Windows – is a Portuguese association, created in January 2010, which represents national manufacturers of efficient windows and facades.

The constitution of the association was based on the need to aggregate the sector of manufacturer's efficient windows to better respond to market demands, by sharing knowledge and strengthening the strategic vision of the sector.

Currently ANFAJE has 56 members, aiming to achieve 75 members in 2015.

The Anfaje represents the entire Portuguese sector of windows and facades in Portugal, since manufacturers of efficient windows to complementary product companies (window frames, fittings and accessories solutions, glass solutions, silicones and mastics, shading solutions, etc.).

Windows are determining factor for the improvement of thermal and acoustic comfort and improved energy efficiency of buildings. So it is essential to promote greater implementation of efficient windows in new construction or in rehabilitation.

MISSION

ANFAJE mission is to ensure the representation, the study and defense of associates and the dissemination of Efficient Windows with the various actors in the construction sector:

architects, business owners, designers, construction companies and with government agencies, universities and other higher institutes of research in Portugal.

VISION

ANFAJE will be a determinant of entrepreneurial innovation window sector in Portugal, challenging associated and articulating its intervention with government agencies and non-public institutions.
